SimpleSeal™ Top Access Series

Service your Lighting without Compromising Sensitive Environments

Easy access to electrical components using rotary latches and a full length piano hinge

The SimpleSeal Top Access (CSETO) Series is sealed to prevent dust and particles from entering the cleanroom, even when the luminaire is being serviced. The fixture's top access feature means service personnel need never bring equipment or parts into your cleanroom, protecting your sensitive processes. This series uses the SimpleSeal overlapping doorframe system to provide certified IP66 dust and water resistance.

SimpleSeal™ CSETO Top Access Series*

- Delivered lumen range: 5,876–25,427 lm
- Input power range: 50–198W
